

## CLASSROOM RESOURCES

A range of the most popular resources from [www.businessstudiesonline.co.uk](http://www.businessstudiesonline.co.uk) are now available on CD. All of the resources have been designed and created by practising Business Studies teachers, who teach in typical UK high schools.

### INTERACTIVE RESOURCES NOW AVAILABLE!

Two CDs containing a range of interactive resources are now available: **Interactive Resources Volume 1** and **Interactive Resources Volume 2**. Both CDs contain 50 interactive resources which make excellent starter or plenary activities. The contents of each CD are as follows:

#### VOLUME 1

- Human Resources (30 activities)
- Marketing (17 activities)
- Production (3 activities)

#### VOLUME 2

- Business Basics (19 activities)
- External Factors (4 activities)
- Finance (27 activities)

The activities on both CDs are accessed through an easy-to-use interface which also provides direct access to the files needed to run the activities. This means that the activities can be easily moved or copied onto a school network.

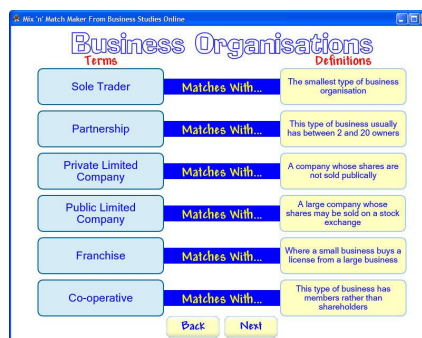

All of the activities are provided in web browser format, whilst some are also provided as stand-alone files.

### Mix 'n' Match Maker

Want to create your own interactive learning materials - but don't want to be a computer programmer? Then this software is ideal! It allows you to generate your own mix 'n' match activities in 5 easy steps, irrespective of your subject area:

1. Type in a title for your activity
2. Type in your 6 terms, along with their definitions
3. Decide whether you want to set a time limit
4. Save your file (in case you want to change it later)
5. Generate your activity!

The software generates an executable file that can then be used with a laptop and projector for use in the classroom. Because it's an executable file it can also be used on other machines (**but not networks!**)

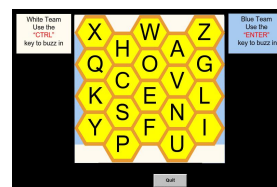

All titles are now published with Multi-User Licences. This allows files to be copied freely onto a network or a secured Virtual Learning Environment within the purchasing institution.

**Also Available: A Range of GCSE Resources, and AS/A2 Resources**

## MOCKBUSTERS

Ideal for revision, this two-player quiz game is based upon the well-known TV quiz show. Split your class into two teams and let them battle it out using a projector or interactive whiteboard.

With its own built-in question editor, the software can be used to set questions that match the needs of your students. It even comes ready-to-use, with a database of 250 Business Studies questions - all of which can be changed or adapted. The software can be used across a school, since teachers of other subjects could easily write their own questions!

Please note that this software is **NOT** designed to run on a network.

## Order Form

Please note that products are NOT endorsed by any exam boards.

2008/2009 AS/A2 Titles	Price	Quantity	Total
